POs received above ordered quantity	ReceivedQty <= OrderedQty	0	Pass
Sales with zero or negative price	UnitPrice > 0	0	Pass
Latest inventory snapshot	Freshness of the source data	31 Dec 2025	Info

How this report is governed

Data quality: all checks pass on the last refresh.

Security: the Warehouse Manager role uses a mapping table (Security_WarehouseAccess), so access is changed by editing data, not the model. Leadership sees every warehouse.

Definitions: KPI measures carry descriptions and live in display folders; the full list is in Measure_Catalogue.md.

Freshness: Last Refresh: 11-Oct-2026.
